Notes:

1. The allocation of clubs to events is less balanced than desirable, but has been made taking into account the preferences of the clubs, ensuring a reasonable balance of competitors at each event, with the constraint that BOK are the organisers of the SWOA round.
2. Fixtures Group will look at trying to get a better geographical spread of events for the 2008 Competition.
3. The Competition guide has been revised. Competitors representing their club have to be a Local or Full BOF member to compete. The revised Guide can be found at: www.britishorienteeing.org.uk/asp/makepage.asp?PID=GUIDELINES
4. The SYO event, previously at Tankersley has now moved to Greno Woods.
5. All clubs who finished in the first 3 in 2006 have been seeded to separate venues.
6. The teams marked in red were placed in the first 3 in the 2006 Final. If they qualify for the final based on their position in their 2007 match, then an additional qualifying place shall be made available from that match for the club finishing in the next position. (Guide 4.3.4).
