5. OTHER

The Committee at its discretion may make small awards to Juniors to help with expenses where they have been selected for training or representation at a national level. However, it should be noted that Juniors would be expected to look first outside the club to other sources of funds, including (for example) Sport Council awards.

The club would not expect to make such awards to seniors.

In exceptional cases - sponsorship could be offered via royalty free maps where events are put on which could also be seen to benefit the club.

The recipients of any such awards should be aware that it is FVO policy to publish such awards to its membership.
